RE: 2025 DigitalOcean SOC 2 Type II Audit Report

DigitalOcean engaged Schellman & Company (“Schellman”) to issue a System Organization Controls (“SOC”) 2 Type II report for the period January 1, 2025 to December 31, 2025.

On February 6, 2026, Schellman issued an annual SOC 2 Type II audit report to DigitalOcean entitled “System and Organization Controls 2 Report, Description of DigitalOcean’s Cloud Infrastructure Platform throughout the period January 1, 2025 - December 31, 2025 with Independent Service Auditor’s Report” (the “2025 DigitalOcean SOC 2 Audit Report”) a copy of which is made available to your organization.

To our knowledge, the following are true with respect to the internal controls and procedures described in the 2025 DigitalOcean SOC 2 Audit Report in the period between January 1, 2025 and December 31, 2025:

1. The existing controls that were tested for the SOC 2 Type 2 report are still in place and working properly;
2. There were no significant changes to the control environment; and
3. There were no serious events that were encountered that would warrant concern regarding the performance and integrity of the controls.

Sincerely,
